This form must include the participants name, address, phone number, emergency contact numbers, known allergies or health conditions as well as signed permission to seek emergency treatment for minors. If the renter’s organization does not have a standard health form, Camp Graham can provide one for the rental group to copy and distribute.

If proof of insurance is not provided, 4-H Camp Graham will acquire insurance and charge per participant according to details in rental contract.

It is advised that groups provide training to all staff to minimize the potential of personnel being in a one on one camper/personnel situation when out of sight of others. Groups should also identify any situations requiring at least two staff members be present. Staff used to supervise campers must be at least 16 years old and at least 2 years older than the youth they supervise. At least 80% of the staff/camper ratios established need to be staffed by persons age 18 and older. CIT's and apprentices cannot be included as adult supervision in your staff/camper ratios. It is recommended that a background check be performed on any staff member with responsibility for campers. This could include checking references, a sex-offender check through the national sex offender registry database (http://www.nsopw.gov) or a criminal background check through your local sherrifs office.
